Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

Train Derailment, Spill: 18-0972, Sacramento County

On 02/12/18 at 1704 hours, the California State Warning Center (CSWC) was notified by Union Pacific Railroad of a single car train derailment in Sacramento County.

- 1 train car derailed upright
- The car has already been re-railed
- There was no release of hazardous materials
- Investigation is ongoing
- Notifications made per SOP

Cal OES SOUTHERN REGION

- Nothing significant to report.

SITUATION SUMMARY

2018 January Winter Storm – Mud and Debris Flow

Activations

- Santa Barbara County Emergency Operations Center (EOC) is activated at Level 2

Deployments

Santa Barbara County:

- 1 Cal OES Southern Region Acting Regional Administrator (RA)
- 1 Cal OES Southern Region Deputy RA
- 1 Cal OES Southern Region Emergency Services Coordinator (ESC)
- 1 Cal OES Inland Region ESC
- 1 Cal OES Debris Representative

Taskforce

- 1 Cal OES Inland Region – Watershed Taskforce
- 1 Cal OES Southern Region Senior ESC
- 1 Cal OES Debris Representative
- 1 Cal OES Voluntary Agency Liaison (VAL)
- 3 Cal OES Recovery Public Assistance

Ventura County:

- 1 Southern Region ESC
- 1 Cal OES Recovery Specialist Debris

Road Closures

- SR 192 remains closed within the mandatory evacuation zone

Missions

- 2018-SOC-45098: Caltrans cleanup of roads and drainage ways within the county right-of-way and creek systems. This mission has been separated out from SOC #44628. (On Scene)
- 2018-Southern-45009: GIS Technical Specialist (On Scene)
- 2018-Southern-44985: GIS Tech Specialist (Coordinating)
- 2018-SOC-44911: Debris staging and sorting area (On Scene)
- 2018-SOC-44836: Support OA with technical support specialists and WERT findings (On Scene)
- 2018-SOC-44833: LIDAR Tech Specs (On Scene)
- 2018-SOC-44797: LIDAR mapping assistance (On Scene)
- 2018-SOC-44765: CNG Azusa Armory for temporary secure storage of trailers and vans (On Scene)
- 2018-SOC-44682: Debris Management Site (On Scene)
- 2018-SOC-44638: DWR Liaisons to support Debris/Flood Fighting Task Force (On Scene)
- 2018-SOC-44628: Drainage and Creek Clearance (On Scene)
- 2018-SOC-44620: Resources to support debris management site (On Scene)

SITUATION SUMMARY

2018 January Winter Storm – Mud and Debris Flow (Continued)

Recovery

- Santa Barbara County
 - Disaster Recovery Center (DRC)
 - Location: Calvary Chapel, 1 N. Calle Cesar Chavez, Suite 21, Santa Barbara
 - Hours of Operation: Monday, Tuesday, Thursday and Friday, 0900 – 1800 hours; Wednesday and Saturday 0900 – 1500 hours.
 - Community Meetings are held each week, on Monday and Friday at La Cumbre Middle School in Santa Barbara, and on Wednesday at Carpinteria City Hall.
- Ventura County
 - DRC
 - Location: Ventura County Credit Union, 6026 Telephone Rd., Ventura
 - Hours of Operation: Monday - Wednesday 0900-1600 hours, Thursday & Friday 0900-1700 hours, Saturday 0900-1300 hours.
 - Cal OES State Debris Staging and Sorting Area
 - Location: Ventura County Fairgrounds
 - Hours of Operation: 0800–2100 hours daily
- San Diego County
 - Small Business Association Disaster Loan Outreach Center
 - Location: Bonsall Community Center, 31505 Old River Rd., Bonsall
 - Hours of Operation: Monday – Friday 0900–1800 hours

FIRE ACTIVITY

Service Interruptions:

- None reported.

WEATHER OF CONCERN

Weather of Concern

Northern California:

- A weather system moving into the Great Basin will bring lingering showers today but limited snowfall will bring only minor impacts. Any lingering snowfall should drop off late tonight.

Southern California:

- There is a chance of scattered showers across the region Monday through Wednesday with rainfall totals of a quarter to a half inch. The greatest amounts will fall south of Point Conception and could include brief periods of heavier rainfall.
- Any heavier showers may be capable of producing minor mud and debris flows for recent burn areas.
- The cold nature of the system will bring snow levels down to around 4000 feet at times with light accumulations possible at higher elevations.

Active Weather Warnings, Watches and Advisories by County:

- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

*** Gusty N-NE-E winds rest of Today and Tonight ***

The first measurable precipitation during the past couple of weeks finally occurred yesterday and overnight. Main impacts of around a tenth of an inch were felt across the North Coast.

The Pacific trough responsible for the unsettled weather will slowly sink southward during the next 48 hours. Gusty N-NE and E winds will affect the Northern California region, specifically the Sacramento Valley, west slopes of the Cascade and Sierra ranges as well as the higher mountain peaks found to the west of the Valley. The main wind period will occur today and tonight with lessening wind by Tuesday afternoon. Humidity will be marginally low at times with upper teens and 20s. The driest conditions will occur tonight and Tuesday.

Another Pacific trough will pass over the region Wednesday/Thursday. This system looks to be a drier one with lighter amounts of precipitation across the far north. A weaker bout of N-NE and eventually E winds should occur following that system passage.

Strong ridging should develop just off the west coast late week but flatten sometime during the weekend and last into early next week. Some precipitation may impact northern portions of the region during this period but significant amounts are not likely.

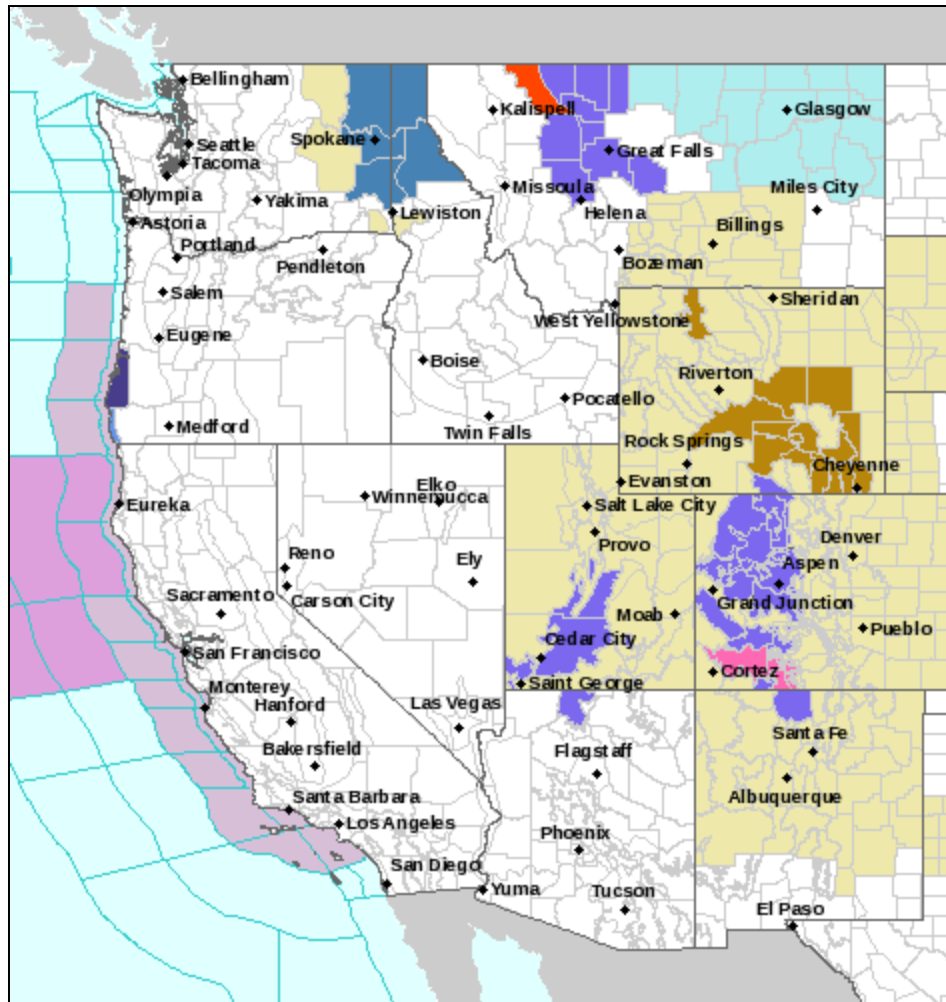

Confidence in the above forecast is pretty solid in terms of drier than normal conditions and periods of stronger northerly winds. Timing may be a bit suspect, especially for the weekend period.

SOUTHERN CALIFORNIA

An area of low pressure currently over Nevada will bring scattered showers with less than a half inch of rainfall to the region through Wednesday night. The snow level will be around 5,000 feet. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas through this afternoon. Temperatures will be a little below normal through Wednesday, with upper 30s and 40s across the mountains and mid 50s to mid 60s in the valleys. The low pressure area will move off to the east and a ridge of high pressure will build into California from the Pacific Ocean bringing significant warming and low humidity to the region Thursday and Friday. Northeast winds of 20 to 30 mph with gusts to 50 mph will surface across the mountains and below the canyons and passes of Southern California Thursday morning through Friday afternoon. A Pacific trough will drop down the West Coast bringing cooling and increasing humidity to the area this weekend. There will be strong westerly winds over the mountains and deserts Saturday afternoon through Sunday and there will be possible showers moving from north to south on Sunday.
